Our Story

Headline:
Option 1: Every patient is equal. Every patient is heard.
Equal respect for everyone, extra support for those who need it most.

Intro paragraph:
In 1971, the people of Kochi came together to build a hospital they could all rely on, whatever their means. Founded by the Cochin Co-operative Hospitals Society, Indira Gandhi Co-operative Hospital (IGCH), Kadavanthra, Kochi, has grown into an affordable multispeciality co-operative hospital in Kochi, with 30 medical departments. More than fifty years later, it continues to follow the same belief: every patient deserves equal respect and quality healthcare, with additional support for those who need it most.

Our Promise,

Equal respect
Every patient deserves the same dignity, attention and standard of care, regardless of their financial circumstances.

Support when it is needed
Eligible patients can access free dialysis, subsidised cancer treatment and medicines through the hospital's patient support initiatives.

Care beyond the hospital
Our commitment extends into the community through weekly free and subsidised medical camps and free meals for cancer patients, provided in association with the Cochin Cancer Society.

Where it began: a peoples hospital since 1971

Additional details need to be collected from IGCH.

1. Names of the founding members, first president, secretary and other people who helped establish the hospital.
2. Details of the original building near Ernakulam South Railway Station, including its facilities, bed capacity and initial medical services.
3. Major challenges faced during the first years and how the hospital gained the community's trust.
4. How the new hospital complex was developed and what changed after its inauguration on 17 September 1986.

Every patient receives the same respect, dignity and commitment to quality care, regardless of their financial circumstances.
We provide additional support to those who need it most through free and subsidised cancer screening, affordable treatment and free dialysis services.

Society Card:
Cochin Co-operative Hospitals Society Ltd.
Registration No. E.288 · IGCH is a unit of the Society

Timeline

1971 | The idea | It started with a group of people in Kochi who wanted to make good healthcare available to everyone, not just those who could afford it.
1986 | A new home | Shri Rajiv Gandhi inaugurated the new hospital complex on 17 September 1986.
Year | Super specialities arrive | Cardiology, oncology and other specialist doctors joined, making IGCH a multispeciality hospital in Kochi.
Year | Accreditation | NABH accreditation (add level) and CGHS empanelment bring recognised quality standards.
2026 | A New Chapter | A new identity, Kerala's first 5G Smart Ambulance and a breakthrough in cardiac care with the implantation of the world's smallest pacemaker.

Leadership Messages
The People Leading IGCH Forward

President's message

Dear Friends,

Indira Gandhi Co-operative Hospital stands as a pillar of excellence and progress in healthcare. For more than 50 years, our dedicated team of doctors, nurses and staff has been unwavering in its mission to strengthen both our hospital and the community we proudly serve. Today, that commitment is stronger than ever, as we continue to advance and adapt to meet the evolving needs of our patients.

Collectively, we are driven by a single overriding goal: to make sure that you, your family, friends and neighbours have access to high-quality, high-value care locally, whenever the need arises.

As president of this institution, I can attest to the fact that IGCH is a "jewel" of an institution with outstanding depth and breadth of clinical capabilities.

Beyond these achievements and milestones, we continue to develop and implement new programs and services to provide you with the very best local care possible. If you haven't been to IGCH recently, I hope you'll spend time within this site to learn more about our rapidly expanding array of services and capabilities; there truly is no longer any need to travel out of the city for superior health care.

During this time of rapid healthcare transformation, and as one of the fastest-growing hospitals in all of Cochin, IGCH is proud to be recognised as a leader in the field across the Ernakulam District. We are indeed "so good. So caring. So close", and with your support, we'll continue to improve IGCH each and every day so we can better serve you, your family and the entire Ernakulam District.

Sincerely,

M O John
President, Indira Gandhi Co-operative Hospital (IGCH)

Secretary's Message

Dear Friends,

I have immense pleasure in welcoming you to Indira Gandhi Co-operative Hospital [IGCH], a highly progressive and enterprising hospital pledged to providing quality healthcare with great emphasis on traditional values.

Bearing in mind that health is the only tool that uplifts the standard of society, there is a very wide prospect behind providing healthcare by IGCH, Ernakulam. The hospital has a vision of becoming an ideal centre for health care for the people around the city and surrounding districts, and not of revenue collection.

Our dream is to be considered as a pioneer institution of health services, propagating, popularising medical science. We also have a plan to make the base wider to medical, paramedical, nursing and allied fields, which will help in availing medical treatment and health services at affordable cost to the needy ones. The hospital has already arranged the best infrastructure, experienced doctors & nursing staff, modern tools and methodologies.

I firmly believe that health services should foster confidence, discipline, clarity in thought and decision-making at critical stages, and above all, social responsibility as a life-long process.

IGCH takes pride in providing a caring atmosphere to all its patients just apt for the sick minds to be nurtured. It aims to develop scholarly students with great self-discipline, intense perseverance and a zeal to excel, which are the qualities required to meet the challenges of

modern society. The hospital seeks utmost co-operation and support at all times to achieve the high standards set, from well-wishers like you.

Thank you.

Secretary

Detailed doctor introduction pages

Content structure

1. Doctor Introduction

The opening section should establish who the doctor is and their professional identity.

Possible details:

Full name
Current designation at IGCH
Speciality and sub-speciality
Total years of experience
Main area of clinical practice
A brief introduction highlighting their professional background

2. Professional Overview

A short summary of the doctor's career and contribution to their speciality.

Include:

Years of experience
Previous hospitals and institutions
Senior positions held
Major areas of professional involvement
Significant contributions to healthcare

3. Educational Qualifications

A clear list of academic qualifications and additional certifications

4. Professional Journey

A chronological account of the doctor's career.

Include: Optional

First professional appointment
Hospitals and medical institutions worked at
Important career transitions
Senior positions held
International training or fellowships
Academic and clinical appointments

A timeline format could make this section visually interesting.

5. Areas of Expertise

Include the specific conditions, treatments or procedures the doctor is experienced in managing.

6. Clinical Interests: Optional
It explains the medical subjects or treatment areas the doctor has a particular interest in.

Possible details:

Specific diseases or conditions
Emerging treatment approaches
Research interests
Special patient groups
Areas of ongoing clinical development

7. Major Achievements and Contributions

Highlight significant milestones in the doctor's career.

Include:

Establishing medical departments or treatment facilities
Introducing new treatment programmes
Developing healthcare initiatives
Contributions to medical education
Contributions to public healthcare
Recognition for professional work

8. Research and Publications

For doctors involved in academic work, this adds professional depth.

Include:
Research papers
Published articles
Medical journals
Books and book chapters
Clinical trials
Research guidance
Conference presentations

9. Professional Memberships

Include verified memberships and affiliations.

10. Awards and Recognition

11. Approach to Patient Care

12. Community and Social Contributions

13. Beyond profession what are interests - Optional

Example: The details below have been collected from Google. They will need to be reviewed and refined once we receive the verified information from the hospital.

Dr. V. P. Gangadharan
Medical & Paediatric Oncologist

Designation: Head of Department, Oncology
Hospital: Indira Gandhi Co-operative Hospital (IGCH), Kadavanthra, Kochi

Qualifications: MBBS, MD (Radiotherapy), MD (Internal Medicine), DM (Medical Oncology)

Dr. V. P. Gangadharan is a medical oncologist associated with Indira Gandhi Co-operative Hospital (IGCH), Kochi. With more than three decades of experience in oncology, he has contributed to the development of specialised cancer care in Kerala through clinical practice, medical education, research and community initiatives.

His career includes establishing the Medical Oncology Department at the Regional Cancer Centre (RCC), Thiruvananthapuram, and leading the Medical and Paediatric Oncology Department at VPS Lakeshore Hospital, Kochi. Beyond clinical practice, his work has focused on cancer awareness, early detection and improving access to treatment for patients from economically disadvantaged backgrounds.

Academic qualifications include:

- MBBS: Government Medical College, Kottayam.
- MD (Radiotherapy): All India Institute of Medical Sciences (AIIMS), New Delhi, 1984.
- MD (Internal Medicine): 1986 – institution to be confirmed.
- DM (Medical Oncology): Cancer Institute (WIA), Adyar, Chennai, 1989.

International Training

- Bone Marrow Transplantation Training, Georgetown University Hospital, Washington, DC, USA, 1995.
- Bone Marrow Transplantation Training, Royal Marsden Hospital, Sutton, UK, 1997.
- Fellowships associated with the National Cancer Institute, USA, and the World Health Organization.

Dr. Gangadharan began his career as a tutor in Radiotherapy and Medical Oncology at Medical College, Thrissur.

In 1989, he joined the Regional Cancer Centre, Thiruvananthapuram, as Assistant Professor and Head of Medical Oncology. During his tenure, he established Kerala's first Medical Oncology Department at the centre.

His professional development included specialised training in bone marrow transplantation in the USA and UK. Following his tenure at RCC, he led the Medical and Paediatric Oncology Department at VPS Lakeshore Hospital, Kochi.

He is now associated with the Medical & Paediatric Oncology team at IGCH, where he contributes to the hospital's oncology services.

Areas of Expertise:

- Medical Oncology
- Paediatric Oncology
- Medical management of adult cancers
- Medical management of childhood cancers
- Cancer counselling and treatment guidance
- Bone marrow and stem cell transplantation

Professional Contributions and Achievements

Dr. Gangadharan has played a role in developing medical oncology services and advancing cancer care in Kerala. His contributions include establishing the Medical Oncology Department at RCC and participating in the development of blood stem cell transplantation in the state.

He also established the Cochin Cancer Society to support patients who face financial difficulties in accessing cancer treatment. The society's initiatives include patient support, counselling and cancer awareness programmes.

His research contributions include serving as Principal Investigator in 38 national and international multicentre clinical trials. He has also been involved in postgraduate medical education, research supervision and academic assessment.

Academic and research contributions include:

- More than 40 publications in national and international medical and oncology journals.
- Chapters in three medical textbooks.
- Principal Investigator in 38 national and international multicentre clinical trials.
- Guidance for ten postgraduate research theses, including studies relating to Ayurveda and music therapy.
- Peer reviewer for the Journal of Medical and Paediatric Oncology.
- Invited speaker at more than 60 scientific meetings and seminars.
- Teaching graduate and postgraduate medical students and examining DM Medical Oncology candidates at universities across India.

Book

Jeevithamenna Athbhutham – A Malayalam book published by DC Books, inspired by his experiences and interactions with patients.

Community and Social Contributions

Dr. Gangadharan has been actively involved in cancer awareness, early detection and patient support. Through the Cochin Cancer Society, he has contributed to initiatives that help

economically disadvantaged patients access cancer treatment, counselling and other support services.

His public awareness efforts include medical camps, educational programmes and media engagement. He has also been associated with IGCH's cancer care initiatives in collaboration with the society.

Awards and Recognition

His professional and social contributions have been recognised by various organisations. Awards listed in published profiles include:

- Kerala Sree Award: Government of Kerala, 2023.
- Kairali Ananthapuri Award: 2012.
- Basheer Award: Pravasi Doha, 2015.
- NSH Global Harmony Award: Kuwait, 2017.

His professional profile also records more than 60 awards and recognitions at state, national and international levels.

Dr. Gangadharan's work in oncology reflects an emphasis on patient awareness, early detection and access to treatment. His community initiatives also highlight the importance of supporting patients and families through the challenges of cancer care.

IGCH: Growth, Achievements and Recognition

Our impact in Kochi since 1971.

Since its establishment in 1971, Indira Gandhi Co-operative Hospital (IGCH) has expanded its medical services, developed its facilities and introduced new healthcare initiatives. Its progress includes advancements in specialised medical care, community health programmes, patient support services and institutional development.

Medical Care and Achievements:

15,000+ Haemodialysis sessions delivered to patients.
7,000+ Free dialysis sessions provided to economically disadvantaged patients.
200 Cardiothoracic surgeries performed within 15 months.
5G Introduction of Kerala's first 5G Smart Ambulance.

(Explore our Dialysis Centre in Kochi) (Explore our Heart Surgery Services in Kochi)

Other options:

- Total cardiothoracic surgeries performed.
- Number of cancer patients supported through free or subsidised treatment.
- Major medical procedures or technologies introduced.
- Total surgeries performed.
- Number of patients treated in specialised departments.
- Number of cancer patients receiving financial assistance.
- Other significant clinical achievements.

Community Health and Patient Support

IGCH's co-operative approach to healthcare extends beyond its hospital services through cancer screening, medical camps, patient assistance and public health awareness programs.
Accessible healthcare for those who need it most
Options:

- Number of free screening programmes and mammograms conducted.
- Number of camps and people reached.
- Number of patients receiving free or subsidised treatment.
- Number of cancer patients receiving meal assistance.
- Cancer awareness and early-detection programs.

Emergency Care and Medical Infrastructure

Indira Gandhi Co-operative Hospital (IGCH) has invested in hospital infrastructure, emergency response systems and medical technology to support its range of healthcare services in Kochi.

Possible highlights:

- Introduction of the 5G Smart Ambulance.
- 24/7 emergency services.
- Development and expansion of ICU facilities.
- Introduction of advanced diagnostic technologies.
- Improvements in patient monitoring and emergency response.

(Learn more about our 24-hour Emergency Care in Kochi.)

Education and Professional Development

Indira Gandhi College of Nursing provides nursing education through academic programmes and clinical learning opportunities.

Possible highlights:

- Establishment year of Indira Gandhi College of Nursing.
- Institutional approvals and affiliations.
- Total number of graduates.
- Clinical training facilities.
- Professional development programmes for hospital staff.

Explore (Nursing College in Kochi for course and admission details)

Accreditations and Recognition

IGCH's institutional accreditations, healthcare empanelments and professional associations support its hospital operations and patient services.

Possible cards:

- NABH accreditation.
- CGHS empanelment.
- Other government healthcare scheme empanelments.
- Insurance and TPA partnerships.
- Awards and institutional recognition.
- Medical and academic collaborations.

Home / Specialities / Super Specialities

Super Specialities at Indira Gandhi Co-operative Hospital, Kochi
Specialist care for complex conditions, on one campus at Kadavanthra, Kochi

Indira Gandhi Co-operative Hospital (IGCH) in Kadavanthra is a super-speciality hospital in Kochi, with (10) departments for complex conditions of the heart, brain, kidneys and digestive system and for cancer. When a patient needs more than one team, our specialists plan treatment together. Every patient gets the same respect and the same standard of care, whatever they can pay.

As a multispeciality hospital in Kochi, IGCH brings together specialist doctors and supporting medical teams to help patients receive coordinated care.

Our speciality departments

Tabs: Super Specialities | Broad Specialities | Clinical Support

Not sure which specialist you need? Explore the departments below or contact our team for help choosing the right consultation.

Cardiology

Diagnosis and management of heart conditions, including coronary artery disease, hypertension, heart failure and heart rhythm disorders. The department also provides cardiac services such as pacemaker implantation, where clinically indicated.

(Cardiologist in Kochi) (Heart Care at IGCH)

Cardiothoracic & Vascular Surgery

Surgical treatment for conditions affecting the heart, chest and major blood vessels. This includes heart surgery, chest (thoracic) surgery, and vascular and endovascular procedures such as stenting and EVAR, a repair of a swollen aorta from inside the blood vessel.

(heart surgery in Kochi at IGCH)

Medical Oncology

Medical treatment for different types of cancer, including chemotherapy and other drug-based therapies. Treatment plans are based on the type and stage of cancer and the individual patient's needs.

(Cancer treatment in Kochi at IGCH)

Surgical Oncology

Surgical treatment for cancer, with procedures planned according to the type, location and stage of the disease. Care may be coordinated with medical oncology and other specialists as part of the patient's treatment plan.

(Cancer surgery at IGCH)

Paediatric Oncology

Specialist care for infants, children and adolescents diagnosed with cancer. The department focuses on diagnosis, treatment planning and ongoing care for childhood cancers.

(Child cancer care at IGCH)

Neurology

Diagnosis and medical treatment of conditions affecting the brain, spinal cord and nerves, including stroke, epilepsy, headaches and migraine, nerve damage (neuropathy) and movement disorders such as Parkinson's disease. The team also provides care for patients with urgent neurological conditions in the emergency department and intensive care unit.

Book Neurologist in Kochi

Neurosurgery

Surgical treatment for conditions affecting the brain, spine and nervous system, including brain and spinal tumours, head injuries and spinal disorders.

(View Department)

Gastroenterology

Diagnosis and treatment of problems with the food pipe (oesophagus), stomach, intestines, liver, pancreas and gallbladder, including endoscopy, which uses a thin camera to look inside the digestive tract.

(See gastroenterology doctors at Kochi and book.)

Nephrology

Medical care for acute and chronic kidney disease, kidney-related high blood pressure and complications of kidney failure. The department also manages the hospital's Dialysis Unit, providing regular haemodialysis and dialysis support for critically ill patients in intensive care.

(Our dialysis centre in Kochi)

Urology

Diagnosis and treatment of conditions affecting the kidneys, bladder and urinary tract, as well as the male reproductive system. These include kidney stones, urinary tract infections and prostate conditions. The department also provides care for urinary problems in women and children, along with reconstructive urological procedures.

(Urologist in Kochi at IGCH) (See urology doctors and book)

Karunya Hridayalaya Cardiac Centre, Kochi

Interventional cardiology and cardiothoracic surgery at Indira Gandhi Co-operative Hospital, Kadavanthra.

Both working together
Looking for a cardiologist in Kochi? Karunya Hridayalaya Cardiac Centre at Indira Gandhi Co-operative Hospital (IGCH), Kadavanthra, brings together interventional cardiology and cardiothoracic surgery under one cardiac team.

From diagnosing heart conditions and performing catheter-based procedures to surgical treatment, the centre provides cardiac care based on each patient's condition and medical needs.

Patients can access cardiology consultations, cardiac investigations and specialist evaluation for conditions that may require angioplasty, pacemaker implantation or heart surgery.

(Meet Cardiac Specialists in Kochi) (Book a cardiology appointment)

A significant step in cardiac care

Leadless Pacemaker Implantation at Indira Gandhi Co-operative Hospital (IGCH), Kadavanthra, Kochi

Karunya Hridayalaya has successfully performed a leadless pacemaker implantation at Indira Gandhi Co-operative Hospital, Kochi in 2026.

Unlike a conventional pacemaker, a leadless pacemaker is a small device placed directly inside the heart through a catheter-based procedure. It does not require a traditional chest incision or leads running through veins to the heart.

This procedure represents an important development in the cardiac services available at IGCH and adds to the range of treatment options offered by its cardiac team.

(Read about the leadless pacemaker procedure.)

Cardiac care under one team

Karunya Hridayalaya brings together two important areas of cardiac treatment: interventional cardiology and cardiothoracic surgery.

Interventional Cardiology

IInterventional cardiology deals with the diagnosis and treatment of heart and blood vessel conditions using catheter-based procedures. These procedures can help improve blood flow, manage certain heart rhythm problems and treat selected cardiovascular conditions.

Depending on the patient's diagnosis, available procedures include:

- Coronary angiography
- Coronary angioplasty and stenting
- Primary angioplasty for eligible heart attack patients
- Pacemaker implantation
- Peripheral angioplasty
- Cardiac device procedures
- Diagnostic cardiac investigations

Patients looking for an angioplasty hospital in Kochi can contact the cardiac team for an assessment and information about available procedures.

Cardiothoracic & Vascular Surgery

Some heart and blood vessel conditions require surgical treatment. The cardiothoracic and vascular surgery team evaluates patients who may benefit from surgery and works with cardiologists to plan appropriate treatment.

The department's surgical services include:

- Coronary artery bypass surgery
- Heart valve surgery
- Surgery for selected congenital heart conditions
- Thoracic surgery
- Vascular surgery
- Surgical treatment of selected aortic conditions

The appropriate treatment depends on the patient's diagnosis, overall health and clinical assessment.

For patients looking for a heart surgery hospital in Kochi, the cardiac team can provide information about surgical consultations and treatment options.

Cardiac Investigations and Diagnostic Services

Accurate diagnosis helps doctors understand the nature of a heart condition and decide on the next steps.

The cardiac team uses investigations such as:

- Electrocardiogram (ECG)
- Echocardiography
- Colour Doppler
- Treadmill Test (TMT)
- Holter monitoring
- Coronary angiography
- Other cardiac investigations as clinically required

For information about investigation availability and appointments, contact the hospital (Number)

Meet Our Cardiac Specialists

Choosing the right cardiologist is an important step in managing a heart condition.

At Karunya Hridayalaya, patients can consult specialists in interventional cardiology and cardiothoracic and vascular surgery. The cardiac team evaluates each patient's condition, explains available treatment options and helps plan the next steps.

Doctor profile cards: Photograph | Name | Qualifications | Designation | Experience | Consultation details

Find a cardiologist in Kochi

When should you consult a cardiologist?

Certain symptoms may indicate an underlying heart condition and should not be ignored.
Medical assessment is important if you experience:

- Chest pain or discomfort
- Breathlessness during routine activities
- Palpitations or an irregular heartbeat
- Dizziness or fainting episodes
- Unusual fatigue
- Swelling in the legs or ankles

These symptoms can have different causes. A cardiologist can assess them and recommend further investigations if required.

Important: Sudden chest pain, severe breathlessness, fainting or symptoms suggestive of a heart attack require immediate emergency medical attention. Do not wait for a routine cardiology appointment.

Cardiac Emergency Care

Heart emergencies require prompt medical attention. Indira Gandhi Co-operative Hospital provides round-the-clock emergency services in Kochi.

If you or someone nearby experiences symptoms of a heart attack, seek emergency medical assistance immediately.

Frequently Asked Questions

When should I consult a cardiologist?

Consult a cardiologist if you experience recurring chest discomfort, breathlessness, palpitations, dizziness or unexplained fatigue. Sudden or severe symptoms require immediate emergency assessment.

What is the difference between angioplasty and bypass surgery?

Angioplasty is a catheter-based procedure used to open narrowed or blocked coronary arteries, usually with a balloon and stent. Bypass surgery creates an alternative route for blood to flow

around blocked coronary arteries. The appropriate treatment depends on the patient's condition and medical assessment.

What is a leadless pacemaker?

A leadless pacemaker is a small cardiac device implanted directly inside the heart through a catheter. Unlike a conventional pacemaker, it does not require leads running from a device placed under the skin of the chest to the heart.

Home / Specialities / Broad Specialities

Broad Specialities at Indira Gandhi Co-operative Hospital (IGCH), Kadavanthra, Kochi

Indira Gandhi Co-operative Hospital (IGCH), Kadavanthra, Kochi, brings together 14 broad speciality departments to address a wide range of healthcare needs. Departments and specialities at Indira Gandhi Co-operative Hospital, Kochi

Established in 1971, Indira Gandhi Co-operative Hospital (IGCH) was founded on the belief that quality healthcare should be accessible to everyone, irrespective of wealth.

Located at Kadavanthra, Kochi, IGCH has grown into a multispeciality hospital serving patients from Kochi, Ernakulam and neighbouring districts of Kerala.

Along with medical and surgical specialities, the hospital offers a range of facilities to support patients through emergency care, diagnosis, treatment and recovery.

5G Smart Ambulance

Emergency care, even before reaching the hospital.

IGCH's 5G Smart Ambulance connects patients with the hospital's emergency team while they are still on the road. Patient vitals and medical information can be shared during transit, helping the team prepare for the patient's arrival.
Key features:
- Real-time patient vital monitoring
- Live video communication
- Remote medical assessment
- Other verified onboard emergency equipment

Service area: (Confirm)
Ambulance booking: (Confirm)
Call for ambulance: Call 0484 294 1600

Emergency & Critical Care

24-hour emergency care in Kochi.

IGCH's Emergency Medicine department provides medical attention to patients requiring urgent assessment and treatment. The emergency team is available round the clock.
Emergency helpline: 0484 294 1600

Intensive Care Unit (ICU)

Close monitoring and specialised care for critically ill patients.

The ICU provides continuous monitoring and medical support for patients who require intensive care. The critical care team manages patients who need close observation and specialised treatment.
(ICU types, bed capacity and available facilities to be confirmed by the hospital.)
CTA: Know more

Operation Theatres

Surgical facilities across multiple specialities.

IGCH's operation theatres support surgical procedures across its medical and surgical departments, including general and laparoscopic surgery, orthopaedics, cardiothoracic and vascular surgery, urology, ENT and surgical oncology.
Number of operation theatres, equipment and additional surgical specialities to be confirmed.
CTA: Know more

Blood Bank

Blood and blood components for patient care.

The hospital's blood bank supports transfusion requirements for emergencies, surgeries and planned treatment.
Available blood components, operating hours, licensing details and contact information to be provided.
CTA: Contact Blood Bank

Dialysis Unit

Making dialysis care more accessible.

We provide haemodialysis services for patients with kidney failure. The hospital has also provided more than 7,000 free dialysis sessions to economically disadvantaged patients.

Explore Our dialysis centre in Kochi

Diagnostic & Imaging Services

Investigations and imaging to support diagnosis.

IGCH's Radiology and Imaging department, including Interventional Radiology and its Microbiology laboratory, supports doctors across different departments in assessing medical conditions and planning treatment.

Services include:
Radiology and imaging
Interventional radiology
Microbiology and laboratory investigations

(Detailed list of imaging services, laboratory tests, operating hours and appointment requirements to be provided by the hospital)
CTA: Radiology and Imaging at IGCH

Rehabilitation & Supportive Care

Care that continues beyond medical treatment.

Recovery and long-term health management may require support beyond consultations and medication. IGCH offers clinical support services to address patients' physical, nutritional and psychological needs.

Physiotherapy: Physiotherapy services support rehabilitation, mobility and recovery following illness, injury or surgery.
Dietetics: Dietary guidance to help patients manage nutritional requirements in line with their medical conditions and treatment plans.
Clinical Psychology: Psychological assessment and support for patients who need help managing emotional and psychological concerns.
Pain & Palliative Care: Support for patients living with serious or long-term illnesses, with attention to pain management, symptom relief and quality of life.

Emergency or after-hours availability:
IP Service:

Insurance & TPA Support

Help with insurance approvals and hospital payments. IGCH works with insurance companies and Third-Party Administrators (TPAs) to facilitate cashless treatment for eligible patients. The hospital's insurance desk assists patients and families with pre-authorisation, documentation and insurance-related enquiries.

Cashless treatment is subject to policy coverage, terms and approval from the insurer or TPA.

Canteen & Patient Facilities
Food and essential services within the hospital campus.

The hospital canteen serves meals and refreshments for patients' families, bystanders, visitors and hospital staff.

IGCH also provides facilities to support patients and visitors during their hospital visits.
CTA: Canteen

Additional facilities:

Patient Waiting Areas: Waiting spaces for patients' families and visitors.
Parking: Parking arrangements for patients and visitors. Wallet parking is also available.
Help Desk & Admission Support: Assistance with hospital enquiries, department directions and admission procedures.
Billing & Payment Assistance: Guidance on billing, payment procedures and related enquiries.

Dialysis Centre in Kochi

Heading: Care in Every Cycle.
Making dialysis accessible for everyone with free sessions for patients who need financial help.

Quality healthcare should be within everyone's reach.
The Dialysis Unit at Indira Gandhi Co-operative Hospital in Kadavanthra, Kochi extends this commitment by providing free haemodialysis sessions to economically disadvantaged patients.

The unit in numbers as of December 2026 (to be provided by hospital)

15,000+ haemodialysis sessions completed
7,000 sessions provided free
24/7 ICU, emergency care and blood bank on the same campus

For dialysis enquiries, contact our team.

Dialysis treatments we offer

Our Dialysis Unit offers a range of treatment options to meet different patient needs:

Regular dialysis for kidney failure
Conventional haemodialysis is a standard treatment for kidney failure. It uses a dialysis machine to remove waste products and excess fluid from the blood. Patients usually receive treatment two to three times a week, depending on their condition and doctor's advice.

Dialysis for critically ill patients
For patients who are seriously ill or receiving treatment in an intensive care unit, some forms of dialysis provide slower or continuous blood filtration.

+ Continuous Haemodialysis: A prolonged treatment that continuously filters waste and excess fluid from the blood. It is used for selected critically ill patients.
+ Slow Low-Efficiency Dialysis (SLED): A slower form of dialysis carried out over an extended period. It may be suitable for patients who cannot tolerate conventional haemodialysis.
+ Haemofiltration: A blood purification treatment that removes waste products and excess fluid through filtration.

Other blood-cleaning treatments

+ Haemoperfusion: A treatment that passes blood through a special filter to remove certain toxins or poisons.
+ Plasmapheresis: A procedure that removes and replaces plasma, the liquid part of blood. It is used to treat certain immune-related and neurological conditions.

Your Care Team

Dialysis care involves more than the treatment itself. At IGCH, our nephrologist, Dr. Bibin Johny (MBBS, MD General Medicine, DM Nephrology), works alongside a team of dialysis nurses, renal dietitians and social workers. Together, they provide medical care, dietary guidance and practical support throughout your treatment.

(To consult a kidney specialist in Kochi, contact our team for appointment details.)

Worried About the Cost of Dialysis?

The cost of treatment should not prevent anyone from seeking the care they need.

As a co-operative hospital, Indira Gandhi Co-operative Hospital in Kadavanthra, Kochi provides free dialysis sessions to eligible patients who need financial assistance.

Our team can explain the eligibility criteria and application process before treatment begins. Contact us to learn more about the available support.

(Contact/eligibility criteria and application details to be provided by the hospital.)

More Ways to Access Specialist Care

India Gandhi Cooperative Hospital (IGCH) also conducts weekly medical camps offering free or subsidised consultations across several specialities, including:

- Liver and Gastroenterology
- Neurology
- Gynaecology
- Orthopaedics
- Cardiology

FAQ

What dialysis treatments are available at IGCH in Kochi?

The Dialysis Unit offers conventional haemodialysis, continuous haemodialysis, SLED, haemofiltration, haemoperfusion and plasmapheresis. The appropriate treatment is decided by the nephrologist based on the patient's medical condition.

Who is eligible for free dialysis at Indira Gandhi Co-operative Hospital, Kadavanthra, Kochi?

Free haemodialysis sessions are available to eligible patients who need financial assistance. The hospital team can explain the eligibility requirements, documents needed and application process.

When should I consult a kidney specialist in Kochi?

Consult a nephrologist if you have persistent changes in urination, swelling in the legs or face, unexplained fatigue or abnormal kidney function test results. The specialist can assess your condition and advise whether further tests or treatment, including dialysis, are needed.

Heading: Know before you come - Insurance & Payment Options

Paying for your care at Indira Gandhi Co-operative Hospital in Kadavanthra, Kochi

Whether insurance will cover it is usually the first worry. The answer depends on your policy, so here is what to do if you have private insurance, a CGHS card, or are paying yourself.

In an emergency, come straight to us. Emergency: 0484 294 1600 (24/7)

If you have private health insurance
For a planned admission, contact our insurance desk before you come in. We send your details to your insurer or TPA and ask for approval. Once approved, eligible expenses are settled directly with the hospital by your insurer. Any expenses not covered under your policy will have to be paid by you.

If you have a CGHS card
IGCH is CGHS empanelled. For planned treatment, bring the referral letter from your CGHS wellness centre along with your card.

If you have a government health insurance card

Bring your government health insurance card and any required supporting documents. Our insurance desk will check your eligibility and explain the approval process and treatment coverage under your scheme. Cashless treatment is subject to scheme guidelines and approval.

If you are paying yourself
Before treatment begins, ask the insurance desk for an estimate. If the cost is a concern, tell us at that stage. (What support is available – to be provided by hospital)

Help available includes:
+ Subsidised treatment
+ Over 7,000 free dialysis sessions for economically disadvantaged patients
+ Free breast cancer screening (mammograms) every Thursday, with subsidised treatment if a case is diagnosed
+ Discounts and free nutritious meals for cancer patients, with the Cochin Cancer Society
+ Weekly outreach medical camps

Documents to bring:
+ Health insurance card or CGHS card, as applicable
+ Valid photo ID
+ Previous medical reports and investigation results
+ Referral letter (for CGHS patients)

A few reminders

Cashless treatment is subject to your policy terms, coverage limits and approval from your insurer or TPA.

If cashless approval is not granted, you may need to pay the hospital directly and submit a reimbursement claim to your insurer, subject to your policy conditions.

Insurers and TPAs we work with

Indira Gandhi College of Nursing, Kochi

A four-year B.Sc. Nursing course, taught inside a multispeciality hospital.

Indira Gandhi College of Nursing, established in 2006 at Kadavanthra, Kochi, offers a four-year Bachelor of Science in Nursing programme. Students receive academic instruction at the college and clinical training at Indira Gandhi Co-operative Hospital (IGCH), gaining experience in different areas of patient care.

The college is affiliated with Kerala University of Health Sciences and approved by the Indian Nursing Council and the Kerala Nursing Council.

(Explore Admissions)

Visit College Website | Download Prospectus

Why choose Indira Gandhi College of Nursing?

Clinical training at a multi-speciality hospital

Students gain clinical experience at Indira Gandhi Co-operative Hospital, with exposure to different medical and surgical departments. Their training includes patient care in general wards, OPD, ICU, CCU, operation theatres and emergency services.

Learning across specialised departments

The hospital's specialist departments provide students with exposure to different areas of nursing practice, including heart care, cancer care and dialysis and kidney care.

A co-operative healthcare environment

IGCH is managed by Cochin Co-operative Hospitals Society Ltd. The hospital follows a co-operative approach to healthcare, with a focus on accessible treatment and patient support. Students learn in an environment where patient care and community health are important parts of hospital practice.

Faculty, hostel and campus facilities

Students are guided by experienced nursing faculty and have access to classrooms, a library, computer facilities, hostel accommodation and a dining facility. The hostel is supervised by a warden, and transport is provided for community health postings.

B.Sc. Nursing Course Details

Course: Bachelor of Science (B.Sc.) Nursing
Duration: Four years
Intake: 50 seats
Affiliation: Kerala University of Health Sciences
Approvals: Indian Nursing Council and Kerala Nursing Council
Admission: LBS allotment
Hostel: Warden-supervised accommodation with dining facilities
Location: Gandhinagar, Kadavanthra, Kochi, Keralam – 682020

Clinical Training at IGCH

Clinical training at a multispeciality hospital gives nursing students opportunities to learn about different conditions, treatments and patient care requirements.

Some of the key areas of exposure include:

Heart Care

Students gain exposure to cardiology and cardiothoracic and vascular surgery, including patient care before and after cardiac procedures.

(Explore Heart Care)

Cancer Care

Training includes exposure to medical and surgical oncology, chemotherapy-related care and the nursing support required by cancer patients and their families.

(Explore Cancer Care)

Dialysis and Kidney Care

Students learn about related conditions and the nursing care involved in dialysis and the management of patients with kidney disease.

(Explore Dialysis and Kidney Care)

Other clinical postings include emergency care, ICU, operation theatre, obstetrics, paediatrics and general medicine.

Campus Facilities

The college provides facilities to support academic learning and student life, including:

- Classrooms and smart learning facilities
- Library with nursing textbooks and journals
- Computer laboratory
- Experienced nursing faculty
- Warden-supervised hostel
- Dining facility and canteen
- Transport for community health postings
- Anti-Ragging Cell

Admission to B.Sc. Nursing

Admission to the B.Sc. Nursing programme is through LBS allotment, subject to the applicable eligibility criteria and admission guidelines.

Students can refer to the latest admission notifications and college prospectus for information about eligibility, application procedures, fees and available seats.

(Admission Details) (Download Prospectus)

For admission enquiries, contact the college office.

Location and Contact

Indira Gandhi College of Nursing is located on the campus of Indira Gandhi Co-operative Hospital, Gandhinagar, Kadavanthra, Kochi, Ernakulam, Keralam – 682020.

The hospital is opposite Rajiv Gandhi Indoor Stadium.
